Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 30 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mostly dry this week, but often quite cloudy.

This Evening and Tonight:
Rather cloudy for many areas this evening and overnight, cloud in some northern, central and eastern parts of the UK perhaps thick enough for a little patchy drizzle. Some clear spells too, mainly in the west.

Tuesday:
Fairly cloudy at first, but bright or sunny spells developing in many parts. Best of the sunshine in the west, eastern Scotland and northeast England most likely to stay cloudier.

Outlook for Wednesday to Friday:
Continuing mostly dry but with a good deal of cloud. The best of any sunshine likely across western Scotland and here it will be pleasantly warm, feeling cooler elsewhere.
